Timothy D. Kanold

Jessica Kanold-McIntyre

Matthew R. Larson

Diane J. Briars

Focus your curriculum to heighten student achievement. Learn 10 high-leverage team actions for grades 6–8 mathematics instruction and assessment. Discover the actions your team should take before a unit of instruction begins, as well as the actions and formative assessments that should occur during instruction. Examine how to most effectively reflect on assessment results, and prepare for the next unit of instruction.

## Benefits

- Identify and cultivate the elements of mathematics instruction and assessment that yield the greatest impact on student learning.
- Increase student learning through 10 steps known as high-leverage team actions for mathematics instruction and assessment.
- Understand which actions must occur before, during, and after unit instruction with your collaborative team.
- Access reproducibles and appendices to gain instructional strategies aligned with your state's standards.

This book is a very valuable tool for individual teachers and the collaborative teams they are working so hard to further develop. The chapters beautifully align and offer a very strong guideline for the planning and implementation process for mathematics instruction and assessment.”

—Pamela Richards, teacher on special assignment, secondary mathematics and science, Visalia Unified School District, California
