

Transform learning with innovative interventions

DVF066 \$174.95
UPC 811796010636

Give every student the help and enrichment they need. Take a look inside two schools to discover the innovative ways they developed systematic interventions programs. Discover practical strategies to build Tier 2 intervention and enrichment periods into the school day, and learn how to work in collaborative teams to create targeted interventions and overcome implementation challenges to ensure all students are successful.

Benefits

- Learn how to revise schedules to build intervention periods without extending the school day.
- Understand the challenges to creating intervention time, and gain tips to overcome them.
- Recognize the elements that define an effective intervention program.
- Observe educators discussing and developing systematic interventions to guarantee that all students learn at high levels.
- Explore how to create intervention and extension periods through activities provided in the Facilitator's Guide.

CONTACT US at **888.763.9045** for customized professional development.

Mike Mattos

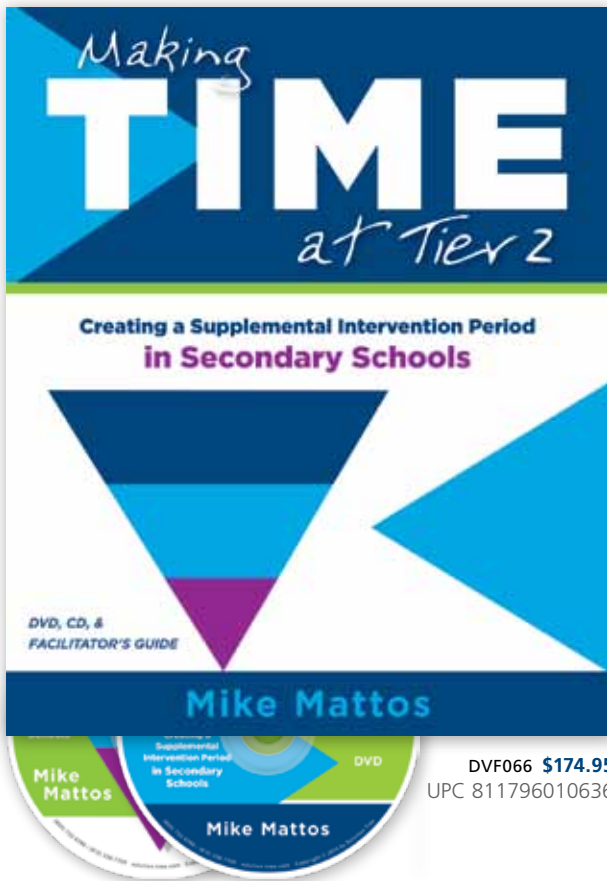

“We break our interventions down into two types—will interventions and skill interventions. When you put those two groups in the same intervention, it’s like putting gasoline and a match together.”

—Mike Mattos, creator of RTI at Work™
